Step 2: Run the Setup File

Once you have downloaded the setup file, double-click on it to run it. You will see a User Account Control window asking you to confirm if you want to allow the program to make changes to your PC. Click Yes to proceed.

You will then see the Malwarebytes Anti-Malware Setup Wizard window. Click Next to continue.

You will be asked to accept the license agreement. Read it carefully and click I Agree if you agree with the terms.

You will then be asked to choose the installation location. You can leave it as default or change it if

you want. Click Next to continue.

You will then be asked to choose the start menu folder name. You can leave it as default or change it if you want. Click Next to continue.

You will then be asked if you want to create a desktop icon and a quick launch icon for Malwarebytes Anti-Malware. Check or uncheck the boxes according to your preference and click Next to continue.

You will then see a summary of your installation settings. Click Install to start the installation process.

Step 3: Finish the Installation

The installation process will take a few minutes. You will see a progress bar showing the status of the installation.

When the installation is complete, you will see a window saying that Malwarebytes Anti-Malware has been successfully installed on your computer. You will also see two options: Enable free trial of Malwarebytes Anti-Malware Premium and Launch Malwarebytes Anti-Malware.

If you want to activate the premium features of Malwarebytes Anti-Malware for a free trial period of 14 days, check the first option. If you already have a license key for Malwarebytes Anti-Malware Premium, you can skip this option and activate it later.

Check the second option if you want to launch Malwarebytes Anti-Malware right away or uncheck it if you want to launch it later.

Click Finish to close the setup wizard.

Step 4: Activate Malwarebytes Anti-Malware Premium

If you have enabled the free trial of Malwarebytes Anti-Malware Premium or if you have a license key for it, you can activate it by following these steps:

- Launch Malwarebytes Anti-Malware if you haven't already.
- Click on Activate
